BEST TENTED LOVE

'Sardine Sardine', by Madeleine Oltra and Angelo de Taisne, for Design Parade Toulon 2022

Designer Madeleine Oltra and architect Angelo de Taisne won the Design Parade Toulon Grand Prix with this installation, an homage to childhood camping trips and 1970s camping gear. It includes a tent sewn by Au Fil de l'Eau, a nautical saddlery in Marseille, using Kvadrat fabrics, as well as tubular furniture and quilted upholstery. 'The constraints of camping, such as transport and lightness, were a great source of inspiration, as they lead to inventions that take everyday objects out of their initial formats,' say the designers. *
